#### ANNUAL OUTING PLANS

BUSINESS MEN'S ASSOCIATION GOING DOWN THE RIVER

The annual outing of the Business Men's Association will occur next Saturday afternoon, when the members and their friends will go to Indian Head on the new steamer Jamestown, and after witnessing the proving of three of Uncle Sam's largest guns, give attention to a sumptuous banquet on

board the boat on the return trip. In order that the members of the party may have the pleasure of this experience at the government proving grounds, Secretary William F. Gude of the association secured from the proper officials of the Navy Department the freedom of the grounds for the occasion. The hours of labor at Indian Head end promptly at 4 o'clock p.m., and for that reason the steamer will have to leave its dock in this city not later than 1:30 o'clock p.m., in order that the party may arrive in time to see the tests. The boat is scheduled to reach Indian Head at 3 o'clock p.m., and to leave there at 4:30 o'clock p.m.

If a letter carrier gets off to appear in court he had better be careful to select the government for his "side" if he wants to draw his regular pay during the time he from a drawer at the Saengerbund club- is off his route. This in brief is the decihouse last night. The money had been sion Controller Tracewell of the Treascounted and placed in a cigar box, to be ury has reached after cogitating over a case submitted to him by Postmaster Merritt. Mr. Merritt wrote the the controller to ask if Carrier C. E. Schooley, one of his regular men, was entitled to pay while attending a justice of the peace court as a witness in the case of Schindler versus The postal regulations say that If a carrier is a witness for the govern-ment he shall be entitled to his pay, but forget to make any remarks about other styles of cases. Mr. Merritt was also curious to know whether or not Schooley would have been entitled to his pay had he got off duty to testify for the defense in the case of the United States versus Green

and Doremus. Mr. Tracewell answered the letter by turning down Schooley as far as pay is concerned, but left Mr. Merritt high up in the air regarding the Green and Doremus case. As Mr. Merritt is about to leave the post office of Washington, like as not forever, he will in all probability go to his grave with the momentous question still unanswered. "Your other question," said Mr. Tracewell in his decision, "does not appear to be involved in any payment to be made by you, but is hypothetical."

#### EXCITING AND PAINFUL.

Anacostia Bridge Workman Falls Overboard and is Burned.

A young colored man named William Harrington, living at 1712 East Capitol street, had an exciting and painful experience last night about 11:30 o'clock while at work on the new Anacostia bridge. Harrington accidentally lost his balance and fell into the water. When he came to the surface he called for aid and made an effort to help himself. The nearest thing to grab was a steam pipe, and when his hands touched the hot iron he uttered a cry of pain. Other workmen hastened to the assistance of Harrington and he was rescued from the water. He had suffered no bad effects from the immersion, but the hot pipe had caused severe burns to his hands and he was suffering intensely. An ambulance was summoned and Harrington was hurried to Providence Hospital, where he was given surgical treatment.

### BARBERS RAISE PRICE.

Will Charge Fifteen Cents Per Shave

Hereafter. At a meeting of the master barbers held last evening in the shop of A. F. Doyle, 943 D street northwest, it was voted to increase the price of a shave in the District from 10 cents to 15 cents. This action was taken as a result of the regulations put forth by the District of Columbia Commissioners for the government of barber shops; the barbers claiming that to conform with the amendments to the health order requires the additional expenditure of much money on

their part, and that they are therefore compelled to ask 15 cents for each shave as a reimbursement for this outlay.

The rule requires that all managers of barber shops register after September 1, 1906, and that each owner equip his shop with running hot and cold water and other appliances percessary to cleanliness. All appliances necessary to cleanliness. All tools and furniture will be kept in a clean condition. After razors, shears, scissors, tweezers and clippers have been used they must be sterialized before being used again either by immersion in a 5 per cent aque-ous solution of carbolic acid for not less than ten minutes or in alcohol of a strength of not less than 65 per cent. Mugs and shaving brushes will be put into bolling water after being used. The use of towels that have not been boiled and laundered since last used is prohibited, and the barbers will cleanse their hands before serving each customer.

A prohibition is the use of alum or other material to stop the flow of blood unless it be applied in the form of a liquid or powder on a clean towel, or, otherwise, in a similar manner. The head rest on each barber chair may not be used unless it is covered with a towel that has been washed since having been used before or with clean newspaper. The punishment for a violation of any of these regulations is a fine of not more than \$25. The action taken last night will be re-

ferred to the white and colored barbors' union for action.
